

THE COMPETITION COUNCIL AUTHORIZED THE TAKING OVER OF MATERNA CARE SRL BY UNIREA MEDICAL CENTER

The Competition Council authorized the transaction through which Unirea Medical Center (CMU) takes over Materna Care SRL, Materna Invest SRL and Premiere Care SRL.

Materna Care SRL, Materna Invest SRL și Premiere Care SRL gestionează împreună Spitalul Premiere din Timișoara, care furnizează atât servicii medicale.

CMU is a company whose main activity is the provision of specialized healthcare services. CMU owns, among other things, Regina Maria Group which is active in the medical services market in Romania.

Materna Care SRL, Materna Invest SRL and Premiere Care SRL jointly manage the Premiere Hospital in Timisoara.

The competition authority analysed this operation and found that it does not significantly impede effective competition on the Romanian market or on a substantial part of it and there are no doubts concerning its compatibility with a normal competitive environment.

The decision will be published on the Competition Council's web site after removing the confidential information.
