

**Summary of Decision no. 53/16.12.2010 regarding the merger achieved by the acquiring of control by Asesoft Distribution Ltd over the activity of IT products wholesale developed by Flamingo International SA**

The Competition Council authorised the merger achieved by the acquiring of control by Asesoft Distribution Ltd over the activity of IT products wholesale developed by Flamingo International SA.

The notified merger has a horizontal dimension, Asesoft Distribution Ltd. being present on the wholesale of IT products, communications, electronics and home appliances markets in Romania.

The relevant product market is represented by the wholesale of IT products. The geographic market where wholesale products above mentioned are marketed is considered to be a national one.

The notified merger's effects on the competitive environment are not significant and the operation does not lead to the creation or strengthening of a dominant position in the identified relevant markets.

After the notified merger was analysed in terms of the Competition Law no. 21/1996 and the Merger Regulation, it was established that there are no serious doubts concerning its compatibility with a normal competitive environment. Consequently, the Competition Council issued a decision of non-objection.
